Welcome to Mountain View Elementary

Welcome to Mountain View Elementary! We are excited to partner with you for a year filled with learning, growth, connection, and achievement. This handbook contains important information about school and district policies, procedures, and resources to support a successful school year.

Strong communication between school and home is essential to student success. Families can expect regular updates through ParentSquare, including school news, important reminders, and upcoming events. We encourage all families to download the ParentSquare app and stay connected throughout the year. We look forward to working together to make this a great year for every Mountain Lion!

Visitors and Volunteers

- Visitors are asked to identify themselves and state the reason for visiting before entering the building, and a valid photo ID is required for check-in through the Raptor system.
- All classroom volunteers and field trip chaperones must be pre-approved through the district volunteer process and wear a school-issued badge while on campus.
- The volunteer approval process can take several weeks, so families are encouraged to begin early.
- Field trip chaperones may be asked to ride the bus and may not bring siblings, friends, or visiting relatives on school field trips.

Communication Channels

- Mountain View shares information through the school website, ParentSquare, classroom newsletters, Wednesday red folders for important papers and testing results, and navy folders for daily homework.
- ParentSquare is used to keep families informed and connected. ParentSquare is used for school news, events, and updates. Parents and guardians are automatically enrolled using the contact information in the Extended Parent Portal. Even without the app, families still receive important emails and text messages from the school.
- Download the ParentSquare app from the App Store or Google Play and log in using the email address or phone number connected to the Parent Portal.
- Families who are not receiving alerts should contact the help desk at help@asd20.org.
- Teachers use email regularly and aim to respond within 24 hours on school days.
- Parent-teacher conferences are scheduled in October and March, and report cards are available through Infinite Campus at the end of each quarter.

- Infinite Campus Parent Portal should be kept current so the school can reach families and authorized emergency contacts quickly.

Non-Custodial Parents

Unless the school has a current court order stating otherwise, Mountain View assumes divorced parents have equal rights to information about their children. A stepparent without legal custodial rights does not have parental rights to check out a student or access student information. A third-party consent document must be completed for non-custodial parents to access student information and/or check out a student. This form is available in the school office upon request.

Choice Information

Enrollment through school choice is a privilege granted based on available space, program capacity, and compliance with District policies and procedures. Acceptance to Mountain View Elementary does not guarantee continued enrollment. As a school, we may review a student’s placement and recommend revocation of school choice enrollment in collaboration with District administration when concerns arise related to:

- Attendance, including chronic absenteeism or patterns of unexcused absences
- Behavior, including violations of the District Code of Conduct or disruption to the learning environment
- Academic engagement and progress

When concerns arise, we will communicate with families, monitor progress, and provide appropriate supports and interventions. If concerns persist, a change in enrollment may be recommended in alignment with District procedures.

Telephone and Personal Device Use

- All communication between home and school during the school day is expected to come through school phones rather than student personal devices.
- Students are not permitted to call or text from personal devices during the school day or respond to calls or texts from home on those devices.
- Cell phones and smart watches must be silenced and put away during the instructional day.
- Recess is technology-free, and students may not use smartphones, smartwatches, or district devices during recess.

Meals, Student Fees, and Health Services

Breakfast and Lunch

- Breakfast is served from 8:20-8:35 a.m. and is not available after 8:35 a.m. or on two-hour late start days.
- Students enter for breakfast through the cafeteria doors in the back of the school.
- Breakfast and lunch are free through the Colorado Healthy Schools grant program.
- Extra portions, milk, and juice may be purchased, and lunch account payments can be added through Infinite Campus or by sending money to school.
- A nut-protected table is available in the cafeteria. Some classrooms are also nut-protected and may have additional food restrictions.
- Parents and families are welcome to eat lunch with their student. Outside lunches may be brought in but the cafeteria is unable to provide adult lunches.

Fee	Amount
K-2 district-provided device user fee (iPad)	\$30

3-5 district-provided device user fee (laptop)	\$55
K-5 student supply fee	\$45
K-5 student consumable fee	\$45

Medication and Health Support

- Prescription medication at school requires the appropriate school form completed by both the parent and the prescribing doctor.
- Over-the-counter medication also requires the same form, completed by the parent.
- Students may not transport prescription or over-the-counter medications to school; families should contact the health room with questions.
- The handbook emphasizes keeping health and emergency contact information current in Infinite Campus.

Arrival, Dismissal, and Attendance

Arrival and Departure Procedures

- School begins at 8:35 a.m. and ends at 3:40 p.m.
- Students may be dropped off beginning at 8:20 a.m.; supervision is not provided before that time, and students may not be on campus **without an adult before 8:20 a.m.**
- Students arriving after 8:40 a.m. must be escorted by an adult to the office and signed in.
- The playground is closed between 8:00 a.m. and 3:50 p.m., and after-school supervision outside ends at 3:50 p.m.
- Students not picked up by 3:50 p.m. are brought into the office and parents/guardians are notified.

Routes

- After school, teachers escort students to the front and back kiss-and-go lines, the bus lot, or the bike rack.
- Front kiss-and-go is for grades K-2 and their siblings; back kiss-and-go is for grades 3-5.
- Students are not permitted to walk in parking lots without an adult and may not walk to Challenger Middle School or its parking lot without an adult.
- If students are picked up early, the office asks families to notify staff in advance; students are not called from classrooms after 3:15 p.m.

Attendance Expectations

- Daily attendance is treated as critical to school success, and Colorado law requires regular attendance for students age 6 through 16.
- Attendance is taken within the first 15 minutes of class; students arriving after 8:35 a.m. are marked tardy, and after 8:40 a.m. an adult must sign them in at the office.
- Excused absences follow district policy and include principal-approved absences, illness or injury, extended disability-related absences, and certain custody-related absences.
- Vacations are recorded as prearranged unexcused absences, and students with excessive absences may be identified as chronically absent.
- Instruction is important for assignment completion. For prearranged absences, class assignments may be requested from the teacher with at least 24 hours' notice. Students are given one extra school day for each day missed to complete make-up work.

Kiss & Go and Walk-Up Procedures

- Kiss & Go operates from 8:20–8:35 a.m. and 3:40–3:50 p.m.
- Front Kiss and Go is for students in kindergarten, 1st and 2nd grades and their older siblings

- Back Kiss and Go is for students in 3rd, 4th and 5th grades
- Avoid gaps between cars when unloading or unloading cars, look to staff for directions
- Students enter/exit cars on the curbside, parents/guardians remain in the vehicle and allow our team to help
- Do not block crosswalks
- Yield to crossing guards
- Avoid phone use while in the Kiss and Go Lane
- Drive slowly and watch for children
- Yield to cars passing on the left
- Do not make U-turns in the Kiss and Go Lanes
- Kindergarteners will stand with a staff member near the wall outside of the kindergarten playground.
- Students are not permitted to walk through the parking lot without an adult.
- Crosswalks must be used when crossing through the parking lot, through the Kiss and Go lanes or through the street leading to MVE.

Student Support, Character Education, and Discipline

Student Learning, Community and Behavior Expectations

- Mountain View Elementary is committed to developing the whole child, academically, socially, and emotionally.
- Our approach is grounded in Responsive Classroom practices, which focus on building strong relationships, creating a positive school climate, and teaching students the skills they need for success.
- These skills are reinforced throughout the school day in classrooms, common areas, and during all school activities.
- At Mountain View, we share common schoolwide expectations:
Mountain View Lions are Safe, Kind, and Responsible.
- Staff teach, model, and consistently reinforce what it means to be safe, kind, and responsible across all settings, including:
 - Classrooms
 - Hallways
 - Cafeteria
 - Playground
 - Arrival and dismissal areas
- Students learn clear, consistent routines and expectations to support a safe and productive learning environment.
- When mistakes occur, staff respond with support, reflection, and problem-solving to help students learn and grow.
- Common themes include keeping hands and feet to self, using quiet voices, following directions from staff, staying within designated boundaries, and using equipment safely.

Bullying Prevention

- The school states that all forms of bullying are unacceptable and encourages students to report concerns to a trusted adult or through Safe2Tell.
- Mountain View teaches students how to identify bullying and responds with direct instruction, classroom action, counseling support, and administrative discipline when warranted.
- Families are encouraged to help students report concerns early so adults can intervene before behavior escalates.

Discipline Approach

- Students are expected to be respectful and responsible members of the school community.

- Staff teach and model expected behaviors and use supports to help students change harmful or disruptive behavior.
- Most behavior concerns are addressed by classroom teachers through reteaching, reflection, and problem-solving.
- More significant or repeated behaviors may be referred to the office for additional support and intervention.
- Possible responses include reflection sheets, teacher-student conferences, loss of privileges, parent conferences, restitution, confiscation of prohibited items, behavior contracts, conferences with administration, suspension, or expulsion in accordance with state law and district policy.

Weather, Safety, and Recess Procedures

Indoor Recess and Weather Guidance

- Students go outside as often as possible, but indoor recess is used for heavy snow or rain, temperatures with a feels-like reading below 20 degrees, or lightning within 10 miles.
- Families are asked to dress students appropriately for unpredictable Colorado weather, including boots when conditions are snowy or wet.

School Cancellation, Delays, and Early Release

- School closure, two-hour delay, and early release notifications are shared through local news, the district website, and ParentSquare.
- If a two-hour delay is called, school begins at 10:35 a.m. and the lunch schedule remains unchanged.
- Families are asked to have a plan in place for student care in the event of an early release due to weather.

Severe Weather Dismissal

- If severe weather occurs at dismissal, students remain in the building until it is safe to release them.
- Car riders are released from classrooms to parents/guardians; bus riders wait indoors until buses can load, and walkers or bike riders are held until a parent/guardian or emergency contact picks them up by car.

Additional School Policies and Family Participation

Dress Code, Personal Items, and Playground Safety

- Students should dress for Colorado weather and for active play. Hats are not worn inside the building except on approved special days.
- Clothing may not display drugs, tobacco, alcohol, vulgar or defamatory messages, or other disruptive content. Clothing may not reveal the stomach, buttocks, chest, or underwear, and no spaghetti straps are allowed. Shorts and skirts must be at least fingertip length. Hoodies should not be worn with the hood up while indoors.
- To support the safety and well-being of all students, please keep the following items at home to protect them from loss or damage and to minimize distractions during the school day: weapons or weapon-like items, skate gear, electronic games, toys, trading cards, and other items deemed inappropriate for elementary school.
- The school expects safe use of playground equipment, no throwing of rocks, sticks, snow, or other objects, and immediate reporting of wildlife concerns or stray animals to staff.

Snacks, Birthdays, and Parties

- Common spaces at Mountain View are nut-protected, and some classrooms are nut-protected as well.

- Families are encouraged to send snacks that are high in protein and/or low in sugar to support sustained energy and focus throughout the school day.
- Birthday treats should be coordinated with the classroom teacher; non-food treats are encouraged, homemade food is not permitted, and store-bought food must have ingredient labels.
- Classroom parties may be supported by volunteer-approved family members, and latex balloons are not permitted.

Parent Teacher Association (PTA) and Accountability Committee

- Volunteer clearance is required to go beyond the lunchroom to recess or other parts of the building, and non-school-aged siblings may not join students on the playground.
- Families may participate through the Mountain View Accountability Committee and PTA, both of which support school improvement and student needs.

Pets and Outside Evaluations

- Animals are not permitted on school grounds for safety reasons, including during arrival, dismissal, or school events.
- When outside providers request school input for evaluations, teachers return completed observation forms directly to the provider rather than to parents/guardians.

Lost and Found

- Our Lost and Found is located in the cafeteria and items are moved to the front lobby during school events for easy access. We strongly encourage families to label all personal items—including coats, boots, gloves, hats, lunch containers, and water bottles—with your child's name to help ensure lost items are returned. Unclaimed items will be donated at the end of each semester.

Part 2: Student Rights and Responsibilities

Introduction

Public school students have certain rights guaranteed by the constitution and laws of Colorado as well as the United States of America. These rights are not the same as adults because the school is a special setting. The law provides that school officials need flexibility to control student behavior in the schools and at school activities, even possibly for actions that occur off-campus, on weekends or during the summer, if the actions have a nexus to school or are detrimental to the welfare of students or staff at the school. However, students do have numerous protections from undue censorship, arbitrary actions of school staff members and elected officials, and unlawful search and seizure, among other things.

This handbook informs you of your rights and your responsibilities as an Academy District 20 student. It will help you be a successful student and citizen in our District. Please read it carefully and ask questions of your principal, your counselor, or your teachers if you do not understand.

Academic Rights

To function well in the classroom, you must have a clear idea of what the teachers expect of you. Therefore, you have a right to know exactly what the requirements are for each course in which you are enrolled. If the course requirements seem unclear to you, or if you have questions, you have not only a right but also an obligation to yourself, your fellow classmates, and to your teacher, to ask for clarification.

Academy District 20 Mission Statement

The mission of Academy School District 20 is to educate and inspire students to thrive.

Asbestos Hazard Emergency Response Act (AHERA) Annual Legal Notification:

In accordance with the United States Environmental Protection Agency's Asbestos Hazard Emergency Response Act, the District has Asbestos Management Plans available for review at each school and at Facilities Management, 10221 Lexington Dr., Colorado Springs, CO 80920. Contact the Director for Facilities with any questions. Telephone: 719-234-1510.

Assessments (administrative policy IKA):

State and federal laws require District students to take standardized assessments in the instructional areas of English language arts, math and science. If a student's parent/guardian chooses to opt the student out of taking a state assessment, the District shall not prohibit the student from participating in an activity, or receiving any other form of reward, that the District provides to students for participating in the state assessment. C.R.S. § 22-7-1013 (8)(b).

Attendance and Truancy (administrative policies JE, JH, JHB):

Daily attendance at school is a critical factor in school success. Students are expected to arrive at school each day on time, ready to learn. It is difficult to replace the learning that occurs in the classroom through the exchange of ideas with study outside the classroom. Excessive absences and/or tardies, whether excused or unexcused, may have a negative effect on a student's learning and grades.

Colorado law requires every student who is age six by August 1 and under 17 to attend school a certain number of hours [C.R.S. § 22-33-104(1)(a)]. Parents have a legal obligation to ensure that every child under their care and supervision receives adequate education and training [C.R.S. § 22-33-104(5)(a)].

Per District policy JE and state law, excused absences are as follows:

1. Absences approved by the principal or designee.
2. Absences due to temporary illness or injury.
3. Absences for an extended period of time due to physical, mental or emotional disabilities.
4. Absences due to being in the custody of the court or law enforcement authorities.

If an absence does not fall into one of the above categories, it will be considered unexcused. Medical notes may be requested if a student has excessive absences.

State statute defines any student who has four unexcused absences in a month or ten unexcused absences in a school year as habitually truant. [Administrative policy JE and C.R.S § 22-33-102(3.5)]. Be aware that the District will first take steps to work with families to reduce truancy, but that the District partners with local juvenile courts to intervene and address “habitual truancy.” When a student has an excessive number of absences, whether excused or unexcused, they negatively impact the student’s academic success. The principal may identify a student who is absent 10% of a quarter, even if the absences are excused, as “chronically absent.” [Administrative policy JH, Student Absences and Excuses]. Legal action may be taken by school administrators if parents and students fail to follow compulsory attendance laws [Administrative policy JHB, Truancy].

Balancing Rights and Responsibilities

With student rights come student responsibilities. In most cases, this means “follow the rules.” The rights of all others in the school environment are protected when students exercise responsibility and follow the rules.

The rules and regulations, the most important of which are summarized in this handbook, are designed to protect rights, yours and others’. They help set expectations so that students learn behavior patterns which enable them to become responsible members of society. The rules also allow the District, if necessary, to discipline individuals who do not respect rules. They also help protect every student’s right to an education. Given the Columbine tragedy and other more recent events, students need to tell an adult if they are aware of other students who are planning to harm themselves or others in the school or community. This is not being a “snitch” or a “tattle-tale.” It is responsible citizenship that could save lives, including your own. Safe2Tell® provides a way for students to anonymously report any threatening behaviors or activities endangering them or someone they know. A report can be made by calling 877-542-SAFE (877-542-7233) or online at .

Bullying (administrative policy JICDE):

The District supports a school climate that is free from threats, harassment and any types of bullying behavior. All types of bullying are unacceptable. “Bullying” is defined in District policy JICDE and state law as “the use of coercion or intimidation to obtain control over another person or to cause physical, mental, or emotional harm to another person. Bullying can occur through written, verbal, or electronically transmitted expressions (i.e., cyberbullying) or by means of physical act or gesture.” Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of their academic performance, on the basis of their weight, height, or body size, or any basis protected by federal and state law, including disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, family composition, national origin, religion, ancestry or the need for special education services, whether such characteristic(s) is actual or perceived. Bullying does not necessarily include all conflicts between students. A student who engages in an act of bullying and/or a student that takes retaliatory action against a person, who in good faith reports an incident of bullying, is subject to appropriate disciplinary action, including suspension, expulsion and/or referral to law enforcement authorities. The District cannot respond to allegations of bullying unless it knows about them. Please tell an adult in your building if you have been bullied or if you have witnessed bullying. Safe2Tell® is a way to anonymously report any threatening behavior that endangers you,

your friends, your family or your community. To make a report using Safe2Tell®, call 877-542-SAFE (877-542-7233) or online at .

Cell Phones and other Electronic Devices (administrative policy JICJ)

Policy JICJ allows students to carry electronic communication devices approved by the building principal, but these devices must be turned off and put away during instructional time unless they are being used for instructional purposes and with approval of the teacher. During non-instructional time, school staff may restrict students' use of such devices if, in staff's judgment, use of the devices interferes with the educational environment. Violation of this policy may result in disciplinary action and confiscation of the electronic communication device. A conference between the parent/guardian, student and school personnel may be required in the event an electronic communication device is confiscated. School personnel will not accept responsibility for lost or stolen personal property. The student will assume responsibility for replacement costs in the event that an electronic device or cell phone is lost or stolen.

Clubs (see Student Organizations, administrative policy JJA)

Meetings of student groups must be organized, scheduled, and conducted within the guidelines established by policy JJA and accompanying procedure. All proposed student organizations shall use the common District-wide application that can be found in JJA E. The principal, or designee, will communicate a final decision to all proposals using the submitted District-wide application.

College Classes-Opportunity to Earn College Credits and Accelerate Learning Pathways to College

Students may earn college credit at a significant cost and time savings.

Concurrent Enrollment (CE) Programs Act [C.R.S § 22-35- 103(6)(a)] and District 20 Concurrent Enrollment policy IHEDA make it possible for eligible students in grades 9-12 who are under the age of 21 and officially registered at an Academy District 20 high school and at a qualified institution of higher education with whom the District has a written cooperative agreement to earn college credit at a significant cost and time savings. Interested students may contact the high school counselor for information on the eligibility criteria and application process as identified by the statute and the District policy.

Confidential Student Records-also see (The) Family Educational Rights and Privacy Act (FERPA, 20 U.S.C. § 1232g, and administrative policy JRA/JRC)

The District protects the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act (FERPA). Therefore, without written consent from a parent or guardian, we do not disclose personally identifiable information from a child's education records unless disclosure is covered by one of the exceptions in FERPA (see administrative policy JRA/JRC). If you wish to allow a third party (for example, a step-parent or other family members) access to personally identifiable information from your child's education records, please contact your building administrator to request a third-party consent form. Each parent or guardian must complete the form and have his or her signature notarized. Return the notarized forms to your building administrator. The permission will be effective until a parent/guardian revokes permission in writing and submits the revocation to the building administrator, or through the end of the current school year, whichever comes first.

Disciplinary Removal from Classroom (administrative policy JKBA)

It is the policy of the District to maintain classrooms in which student behavior does not interfere with the ability of the licensed staff member to teach effectively or the ability of other students to participate in classroom learning activities.

Students shall be expected to abide by the code of conduct adopted by the District and any other appropriate classroom rules of behavior established by the licensed staff member, and approved by the building principal, for the purpose of maintaining order and a favorable academic atmosphere. Any student who violates the code of conduct or other classroom rules may be subject to removal from class and/or disciplinary removal.

Student removal from class is a serious measure and should not be imposed in an arbitrary, casual, discriminatory or inconsistent manner. Behavioral expectations are always more constructive and more likely to be followed when they are communicated as clearly as possible to students. However, it is neither possible nor necessary to specify every type of improper or inappropriate behavior, or every circumstance that would justify removal from class under this policy. Licensed staff members are expected to exercise their best professional judgment in deciding whether it is appropriate to formally remove a student from class in any particular circumstance. All instances of formal removal from class shall be documented.

A licensed staff member is authorized to immediately remove a student from his or her classroom if the student's behavior:

1. violates the code of conduct adopted by the District administrative policy; or
2. is dangerous, unruly, or disruptive; or
3. seriously interferes with the ability of the teacher to teach the class or of the students to learn.

A student with a disability may be removed from class and placed in an alternative educational setting only to the extent authorized by state and federal laws and regulations.

Removal from class under this policy does not prohibit the District from pursuing or implementing additional disciplinary measures including, but not limited to, detentions, suspensions, or expulsions for the conduct or behavior for which the student was removed, in accordance with District policy concerning student suspensions, expulsions and other disciplinary interventions. Parents/guardians should be notified of the student's removal from class in accordance with established procedures.

Equal Educational Opportunity (administrative policy JB)

Every student in this school district shall have equal educational opportunities through programs offered in the school district regardless of disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, family composition, national origin, religion, ancestry, or need for special education services.

Evaluation

You have a right to be evaluated fairly. Grades, progress reports, and other forms of evaluation should be based on requirements that are clearly set forth by teachers and they should be applied fairly to all students.

(The) Family Educational Rights and Privacy Act (FERPA) (administrative policy JRA/JRC and procedure JRA/JRC R), Notification of Rights under:

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The parent or eligible student will be provided an electronic copy of the file through a secure link.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Parents or eligible students who wish to ask the school to amend a record should write the school principal, within 10 school days of the date records were first examined, clearly

identifying the part of the record they want changed, and specifying why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent. FERPA does permit disclosure without a parent's or guardian's written consent to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, teacher, or support staff member (including but not limited to paraprofessionals, transportation personnel, health and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contactor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own staff members and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

U.S. Department of Education
Student Privacy Policy Office
400 Maryland Avenue, SW

FERPA Notice for Directory Information (administrative policy JRA/JRC):

FERPA requires that the District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, the District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the District to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's or guardian's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories – names, addresses and telephone listings – unless

parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.

If you do not want the District to disclose directory information from your child's education records without your prior written consent, you may adjust this setting in your Infinite Campus account.

The District has designated the following information as directory information:

- Student's name
- Student's photograph
- Student's grade level
- Dates of attendance
- Enrollment status
- Participation in officially recognized activities & sports
- Weight and height of members of athletic teams
- Major field of study
- Degrees, honors, and awards received
- The most recent previous educational agency or institution attended

Please note that FERPA contains a specific exclusion for records such as investigative reports, risk assessments, and other records created and maintained by school security personnel, which may be disclosed without consent. 20 U.S.C. § 1232g(a)(4)(A)(ii);(B)(II).

Free Association

You are generally free to associate with groups of your own choosing. However, any group, school-sponsored or not, that acts to interfere with the rights of others, or disrupt the educational process, may be subject to disciplinary actions by school officials or appropriate law enforcement agencies.

Free or Reduced Lunch (administrative policy EF)

Students do best in school if they have eaten a nutritious and balanced meal. Academy District 20 participates in the National School Lunch Program, as well as the Healthy School Meals for All Program that provides free meals to all students. The Board of Education agrees to the federal eligibility regulations, and the food service program meets all state and federal requirements relating to meal and menu records, fiscal controls and accountability, free and reduced-price meals, civil rights compliance, sanitation, and safety.

Gangs (administrative policy JICF):

Gang activities at school impose a threat to the welfare and safety of students and others in the school community and cause substantial disruption to the educational process.

The term "gang" as used in this policy refers to two or more individuals who share a common interest, bond, or activity characterized by criminal, delinquent, or otherwise disruptive conduct engaged in collectively or individually.

The Board of Education and District administration desire to keep District schools and students free from the threats of harmful influence of any groups or gangs which advocate drug and/or alcohol use, violence, or disruptive behavior. School district personnel shall maintain supervision of school premises, school vehicles, and school-related activities to deter gang intimidation of students and confrontations between members of different gangs. The superintendent or designee shall establish open lines of communication with local law enforcement authorities to share information and provide mutual support in this effort. The superintendent or designee shall provide periodic training to help staff members identify gangs and gang symbols, recognize early manifestations of disruptive activities and respond appropriately to gang behavior.

Any apparel or manner of grooming which by virtue of its color, arrangement, trademark, or any other attribute denotes membership in or affiliation with any gang is prohibited on school premises, in school vehicles, and at school-related activities. Any gestures, signals, or graffiti which connote gang membership or activities are also prohibited. These prohibitions shall be applied at the principal's discretion after consultation with the superintendent or designee, as the need arises at individual school sites.

Most positive changes come about through the committee process. The District and the Board of Education also want to maintain open lines of communication. Administrative policy KE and the associated regulation KE R contain information on public concerns and complaints.

In accordance with administrative policy AC and its corresponding regulations, no discrimination on the basis of sex, sexual orientation, gender identity or gender expression, transgender status, or family composition is permitted in the programs or activities District 20 operates. Sexual harassment is recognized as a form of sex discrimination and thus is a violation of the laws which prohibit sex discrimination. A learning environment that is free from sexual harassment shall be maintained. It shall be a violation of policy for any staff member to harass students or for students to harass other students through conduct or communications of a sexual nature, or to retaliate against anyone that reports sexual harassment or participates in a harassment investigation.

Acts of verbal or physical aggression, intimidation or hostility based on sex, but not involving conduct of a sexual nature may also constitute sexual harassment.

Students are encouraged to report all incidents of sexual harassment to an adult at school and file a complaint, through the District's complaint process outlined in JBB E. In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred shall be investigated. See administrative policy JBB, Sexual Harassment of Students, and the reporting form JBB E.

Dress Code for Students (administrative policy JICA):

You have a right to dress as you want in accordance with your own taste so long as it is not materially and substantially disruptive to the educational process. The Student Dress Code, administrative policy JICA, defines certain clothing or appearance as disruptive if it advocates drug use, violence, or unlawful activity. If your clothes are inappropriately revealing or tattered and torn, you will be in violation of the dress code as well. A safe and disciplined learning environment is essential to a quality educational program. District-wide standards on student attire are intended to help encourage school pride and thereby help students concentrate on schoolwork, reduce discipline problems, and improve school order and safety. The District administration recognizes that students have a right to express themselves through dress and personal appearance; however, students must not wear apparel that is deemed disruptive or potentially disruptive to the classroom environment or to the maintenance of a safe and orderly school.

Any student deemed in violation of the student dress code will be notified of the violation and required to change into appropriate clothing or make arrangements to have appropriate clothing brought to school immediately. Disciplinary actions subsequent and/or repeated violations of the student dress code may include a parental conference and more severe disciplinary consequences, including suspension or expulsion.

The following items are deemed disruptive to the classroom environment or to the maintenance of a safe and orderly school and are not acceptable in school buildings, on school grounds or at school activities:

1. inappropriately sheer, short, tight or low-cut clothing that bares or exposes traditionally private parts of the body including, but not limited to, the stomach, buttocks, back and breasts
2. Any clothing, paraphernalia, grooming, jewelry, hair coloring, accessories, or body adornments that are or contain any advertisement, symbols, words, slogans, patches, or pictures that:
 - a. Refer to drugs, tobacco, alcohol, or weapons
 - b. Are of a sexual nature
 - c. By virtue of color, arrangement, trademark, or other attribute denote membership in gangs which advocate drug use, violence, or disruptive behavior
 - d. Are obscene, profane, vulgar, lewd, or legally libelous
 - e. Threaten the safety or welfare of any person
 - f. Promote any activity prohibited by the student code of conduct
 - g. Otherwise disrupt the teaching-learning process

Exceptions:

Appropriate clothing may be worn in physical education. Clothing normally worn when participating in school sponsored extracurricular or sports activities (such as cheerleading uniforms and the like), may be worn to school when approved by the sponsor or coach.

Drug and Alcohol Use by Students (administrative policy JICH):

It shall be a violation of District policy and considered to be behavior that is detrimental to the welfare and safety of other students or school personnel for any student to possess, use or distribute alcohol or drugs, or to possess drug paraphernalia on school property or at school-sponsored events. **Sharing any controlled**

substance, including prescription medication, is also a violation of District policy. In order to promote a healthy and safe learning environment, the school district will take disciplinary action that may include suspension or expulsion from school and may include referral to law enforcement for criminal prosecution.

Students who use or possess alcohol or drugs or are under the influence of alcohol or drugs in violation of policy JICH will be disciplined in the following manner:

- First Offense - The student may be suspended for up to three school days, and the principal may recommend additional suspension and/or expulsion/deferred expulsion. At the discretion of the principal and with the concurrence of the superintendent, a portion of the suspension may be held in abeyance if the student completes an appropriate program, which may include an alcohol and/or drug education/treatment/counseling program and/or community service, details of which shall be agreed to between principal and parent. Costs of the program shall be the responsibility of the student and parent. Failure to provide documentation of completion of the program within the prescribed time limits will result in the reinstatement of the original suspension.

Based on circumstances of individual cases, including but not limited to situations involving particularly pernicious, harmful, or addictive illegal drugs such as felony class controlled substances, the principal or designee, at his or her discretion, may recommend additional suspension or expulsion. Violations of administrative policy JLCD on Administering Medications to Students may result in disciplinary action, at the discretion of the principal or designee.

- Second Offense - The student may be suspended for up to five school days, and the principal may recommend additional suspension and/or expulsion/deferred expulsion.
- Third and Subsequent Offense(s) – The student may be suspended for up to 10 school days and the principal may recommend to the superintendent expulsion of the student for up to one calendar year for the third offense and all subsequent offenses occurring within three years.

Penalties for Possession of Drug Paraphernalia

Students who possess drug paraphernalia at school, on the school bus, or at school sponsored events may be disciplined in the following manner:

1. First Offense - The student may be suspended for up to three school days.
2. Second Offense - The student may be suspended for up to five school days.
3. Third Offense - The student may be suspended for five school days and the principal may recommend an additional five days' suspension, or expulsion.

Penalties for Distribution, Selling, Purchasing or Exchanging Alcohol or Drugs

Students who distribute, sell, purchase or exchange alcohol or drugs, whether by selling or giving, may be expelled, provided that the purchase or exchange of over-the-counter drugs may be limited to a suspension in appropriate circumstances at the discretion of the principal.

Electronic Communication Devices, including Cell Phones (administrative policy JICJ):

Electronic communication devices can play a vital communication role. However, unless expressly permitted by a teacher for instructional purposes, the use of electronic communication devices within the classroom is not permitted. For purposes of this policy, an “electronic communication device” is any device which records, replays, transmits, receives or otherwise conveys information electronically between the student and another person or entity.

Students may carry electronic communication devices approved by the building principal, but these devices must be turned off and put away during instructional time, unless they are being used for instructional purposes and with approval of the teacher. Regarding non-instructional time, school staff members have the

authority to restrict students' use of such devices in school buildings, on school buses, at school-sponsored activities and on field trips, if in the judgment of the staff member, the use of the device interferes with the educational environment. Use of a device to record all or part of any classroom instruction is permissible only with the prior approval of the teacher.

Use of electronic communication devices with cameras is prohibited in locker rooms, bathrooms, or other locations where such operation may violate the privacy rights of another person. It is the student's responsibility to ensure that the device is turned off and out of sight during unauthorized times.

Violation of this policy and/or use that violates any other District policy may result in disciplinary action and confiscation of the electronic communication device. A conference between the parent/guardian, student and school personnel may be required in the event an electronic communication device is confiscated.

The District shall not be responsible for loss, theft or destruction of electronic communication devices brought onto school property.

Screening and Testing of Students (and Treatment of Mental Disorders) (administrative policy JLDAC)

Parents/guardians and eligible students have the right to review any survey, assessment, analysis or evaluation administered or distributed by a school to students whether created by the District or a third party. "Eligible student" means a student 18 years of age or older or an emancipated minor. Any survey, assessment, analysis, or evaluation administered or distributed by a school to students shall be subject to applicable state and federal laws protecting the confidentiality of student records.

Parents/guardians and eligible students shall receive notice and have the opportunity to opt a student out of activities involving the collection, disclosure or use of personal information collected from the student for the purpose of marketing or selling that information or otherwise providing the information to others for that purpose.

School personnel are prohibited under state law from recommending or requiring the use of psychotropic drugs for students. School personnel are also prohibited from testing or requiring testing for a student's behavior without giving notice to the parent/guardian describing the recommended testing and how any test results will be used. Prior to conducting any such testing, school personnel shall obtain written permission from the parent/guardian or eligible student in accordance with applicable law.

Licensed school personnel are encouraged to be knowledgeable about psychiatric or psychological methods and procedures but shall not be involved in any diagnosis, assessment or treatment of any type of mental disorder or disability unless appropriately certified.

Student Expression

Students have a limited right to free expression based on the First Amendment to the United States Constitution. The right to speak (including written expression), however, must not create a material and substantial disruption to the educational process, be obscene, lead to unlawful action, harm someone's reputation, or create a clear and present danger to others.

These legal requirements also apply to how students dress when they come to school or school activities. If students cross the line from protected speech, where they are expressing their point of view/opinion, to speech which creates a material and substantial disruption, they may be disciplined. See policies on Student Publications, JICE; Suspension, Expulsion and Denial of Admission, JKD/JKE; and the Student Dress Code, JICA.

Student Conduct (administrative policy JIC):

It is the intention of the Board of Education and District administration that the District's schools help students achieve maximum development of individual knowledge, skills and competence and that they learn behavior patterns which will enable them to be responsible, contributing members of society.

The District, in accordance with state law, has adopted a written student conduct and discipline code based upon the principle that every student is expected to follow accepted rules of conduct and to show respect for and to obey persons in authority. The code shall emphasize that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action. The code shall emphasize proportionate disciplinary interventions and consequences and keeping students engaged in learning. The code shall be enforced uniformly, fairly and consistently for all students.

All administrative policies and regulations containing the letters "JIC" in the file name shall be considered as constituting the conduct section of the legally required code.

The rules shall not infringe upon constitutionally protected rights, shall be clearly and specifically described, shall be printed in a handbook or some other publication made available to students and parents/guardians, and shall have an effective date subsequent to the dissemination of the published handbook.

The superintendent shall arrange to have the conduct and discipline code distributed once to each student in elementary, middle, junior high and high school and once to each new student in the District. The superintendent shall ensure reasonable measures are taken to ensure each student is familiar with the code. Policies are maintained online with public access. Copies can be printed upon request at any District school.

The code shall apply to behavior in the classroom, on school grounds, in school vehicles, at school activities and events, and in certain circumstances, to off-campus behavior. In all instances, students shall be expected to conduct themselves in keeping with their level of maturity, acting with due regard for the supervisory authority vested by the board in all District staff members, the educational purpose underlying all school activities, the widely shared use of school property, and the rights and welfare of other students. All staff members of the District shall be expected to share the responsibility for supervising the behavior of students and for seeing that they abide by the established rules of conduct.

Student Discipline (administrative policy JK)

The District, in accordance with state law, has adopted a written student conduct and discipline code based upon the principle that every student is expected to follow accepted rules of conduct and to show respect for and to obey persons in authority. The Code also emphasizes that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action. Additionally, the District has adopted policies and procedures for handling general and major discipline problems for all students of the District which are designed to achieve these broad objectives. All administrative policies and regulations containing the letters "JK" in the file name constitute the discipline section of the legally required code.

Student Fees and Fines (administrative policy JQ)

Families that are eligible for the **Free and Reduced Program** should provide their household income information by completing the Free and Reduced Application. While meals are provided for free to all Academy District 20 students through Healthy School Meals for All, it's important for us to gather this information in order to receive federal funding.

By providing this information, families support the District in accessing additional federal funds that go directly to schools to help cover the cost of meals, as well as after school programs and other nutritional programs for students.

Families who qualify may receive discounted school fees, athletics, bus passes, device fees and more.

Applications and information regarding the free and reduced-price lunch program can be obtained by contacting the free and reduced lunch registrar at 234-1416 or free-and-reduced@asd20.org.

Student Interrogations, Searches, and Arrests (administrative policy JIH):

The Board of Education and District administration seek to maintain a climate in the schools which is conducive to learning, and protective of the safety and welfare of staff and students. To achieve this goal, it may be necessary for school personnel to search the person and/or the personal property of the student and to seize any property deemed injurious or detrimental to the safety and welfare of students and staff.

Interviews by school administrators

When a violation of District policy or school rules occurs, the principal or designee may question potential student victims and witnesses without prior consent of the student's parent/guardian. If a report of child abuse is made to school officials and the suspected perpetrator is a member of the student's family, no contact with the student's family will be made.

Searches conducted by school personnel

Searches may be conducted by a school official who has reasonable grounds for suspecting that a search will turn up evidence that the student has violated either the law or policy. When reasonable grounds for a search exists, the school principal or designee may search a student and/or the student's personal property while on school premises or during a school activity in accordance with this policy and may seize any illegal, unauthorized, or contraband materials.

Whenever possible, the student shall be informed of the reason(s) for conducting the search and the student's permission to perform the search shall be requested. A student's failure to cooperate with school officials conducting a search shall be considered grounds for disciplinary action.

Search of school property

School lockers, desks and other storage areas are school property and remain at all times under the control of the school. All such lockers, desks and other storage areas, as well as their contents, are subject to inspection at any time, with or without notice.

Students shall assume full responsibility for the security of their lockers and/or other storage areas in the manner approved by the administration. Students shall be responsible for whatever is contained in desks and lockers assigned to them by the school, as well as for any loss or damage relating to the contents of such desks and lockers.

Search of the student's person or personal effects

The principal or designee may search a student or a student's personal effects such as a purse, backpack, book bag, briefcase, or vehicle parked on school property or at school-sponsored events or activities if the school official has reasonable grounds to suspect that the search will uncover

- Evidence of a violation of District policies, school rules, or federal, state, or local laws.
- Anything which, because of its presence, presents an immediate danger of physical harm or illness to any person

Search of the person shall be limited to the student's pockets, any object in the student's possession such as a purse, backpack, book bag, or briefcase, and a "pat down" of the exterior of the student's clothing by a staff member who is the same sex as the student being searched. Staff members may also utilize a handheld metal detector on the exterior of a student's clothing and personal items. The extent of the search of a student's person or personal effects, as well as the means to conduct the search, must be reasonably related to the objectives of the search and the nature of the suspected violation. Additionally, school officials conducting

the search shall be respectful of privacy considerations and religious beliefs, in light of the sex and age of the student.

Except in situations presenting a significant risk to the safety or welfare of students, school personnel, or property, personal searches of a student shall be conducted in a private room by a person of the same sex as the student and witnessed by another person of the same sex as the student.

Searches of a student's person and/or personal effects may be conducted without the prior consent of the student's parent/guardian. However, the parent/guardian of any student searched shall be notified of the search as soon as reasonably possible.

Searches of the person which may require removal of clothing other than a coat or jacket shall be referred to a law enforcement officer. School personnel shall not participate in such searches.

Seizure of items

Anything found in the course of a search conducted by school officials which is evidence of a violation of law or District policy or school rules or which by its presence presents an immediate danger of physical harm to self or others may be:

- Seized and offered as evidence in any expulsion proceeding. Such material shall be kept in a secure place by the school administration or security until it is presented at the hearing.
- Returned to the student or the parent/guardian.
- Turned over to a law enforcement officer in accordance with this policy.

Law enforcement officers' involvement--Interrogations and interviews

When law enforcement officials request permission to question students when students are in school or participating in school activities, the principal or designee shall ascertain that the law enforcement officer has proper identification. Except when law enforcement officers have a warrant or other court order, or when an emergency or other exigent circumstances exist, such interrogations and interviews are discouraged during students' class time.

It is the responsibility of the law enforcement officer interviewing student witnesses or interrogating student suspects to assure compliance with all applicable procedural safeguards. Upon request by law enforcement to interview a student witness or interrogate a student suspect, school officials shall make an effort to notify the student's parent/guardian, except in cases involving investigation of reported child abuse where the suspected perpetrator is a member of the student's family, when law enforcement has a court order directing that the student's parent/guardian not be notified, or when an emergency or other exigent circumstances exist. However, whether or not to postpone the interview or interrogation until the parent/guardian arrives is the law enforcement officer's decision.

Search and seizure

The principal or designee may request a search on school premises be conducted by a law enforcement officer. When law enforcement officers respond to such a request, no school staff member shall assist or otherwise participate in the search. It is expected that searches by law enforcement will be conducted in accordance with the requirements of applicable law.

Custody and/or arrest

Students will be released to law enforcement officers if the student has been placed under arrest or if the student's parent/guardian and the student consent to such release. When a student is removed from school by law enforcement officers for any reason, school officials will make reasonable efforts to notify the student's parent/guardian.

It is expected that all procedural safeguards prescribed by law are followed by law enforcement officers conducting student arrests. However, District staff is not responsible for an officer's legal compliance when arresting a student.

Parking Lot/Vehicle Searches (administrative policy JIHB)

The privilege of bringing a student-operated vehicle on to school premises is conditioned on consent by the student driver to allow for search of the vehicle when there is reasonable suspicion that the search will yield evidence of contraband.

Refusal by a student, parent/guardian, or owner of the vehicle to allow access to a motor vehicle on school premises at the time of request to search the vehicle shall be cause for termination without further hearing of the privilege of bringing the vehicle on to school premises. If a student refuses to consent to search, a parent or guardian will be contacted to obtain their consent to search. If the consent to search is denied by parent, then the vehicle shall be removed immediately from District property and forever banned from all District property. In such cases, there will be no refund of the parking fees paid, and the student will not be permitted to purchase a future parking pass. Should the vehicle be subsequently found on District property, it is subject to being towed at the owner's expense immediately without notice. Refusal to submit to search also may result in disciplinary action and notification of law enforcement officials.

Student Organizations (administrative policy JJA)

Students in middle and high schools in this District shall be permitted to conduct meetings of student clubs or student organizations to meet on school premises during noninstructional time, in accordance with administrative policy JJA. Curriculum-related student organizations serve as an extension of the regular school curriculum. The function of curriculum-related student organizations is to enhance the participants' educational experience and supplement the course materials within the educational program of the schools. Curriculum-related student organizations must articulate how the content and activities of the proposed student organization will extend the curriculum of a course/s offered in the school. Student organizations meeting these criteria and approved by the principal will be deemed to be officially recognized, school-sponsored student organizations. All proposed student organizations shall use the common District-wide application that can be found in JJA E. The principal, or designee, will communicate a final decision to all proposals using the submitted District-wide application.

Secondary school students are also permitted to organize and conduct meetings to pursue activities outside of the school curriculum. Such organizations must be student initiated and directed, and persons not attending school in this District, parents, school personnel or non-school persons are prohibited from directing, conducting, controlling, or regularly attending the activities of a noncurricular student group. Noncurricular student groups shall not be deemed to be curriculum-related or endorsed, but must be supervised by a licensed District staff member. Students seeking approval for a student organization to meet at school during noninstructional time should seek approval from the principal or his or her designee in accordance with administrative procedure JJA R.

Student Use of the Internet, Electronic Communications, and Digital Media (administrative policy JS)

The utilization of the Internet, electronic communications, artificial intelligence, and digital media is integral to supporting educational curricula and substantially enriching the learning environment. Engagement with these resources necessitates students to exercise critical thinking, information analysis, effective communication, proficient writing skills, problem-solving abilities, and the cultivation of digital competencies essential for current employment demands. Moreover, leveraging these tools fosters a mindset of continual learning and provides avenues for remote education participation, peer interaction, and access to educational informational resources. For this policy's purposes, "digital resources" means District network and any device, hardware, software, website, database, or other technology used to access the Internet.

Blocking or filtering obscene, pornographic, or harmful information

Recognizing the dynamic nature of the digital landscape, wherein students may encounter materials of varying content, including potentially harmful content, the District will make reasonable measures to safeguard students from accessing material deemed obscene, pornographic, or otherwise detrimental to minors, in accordance with the Children's Internet Protection Act (CIPA). Students shall take responsibility and use good judgment when using District digital resources to avoid exposure to inappropriate material.

No expectation of privacy

District-owned digital resources are intended for educational purposes and are subject to monitoring and oversight by the District. Students should be aware that there is no expectation of privacy when accessing or using District digital resources or within the District network. Students' District-provided devices will be filtered at all times. Student personal devices are filtered while on the District network.

Unauthorized and unacceptable uses

Students shall use District technology devices in a responsible, efficient, ethical, and legal manner. Unauthorized and unacceptable uses of digital resources encompass a spectrum of behaviors, including, but not limited to, accessing, creating, or transmitting material unrelated to educational objectives. All material and information accessed/received through the District network shall remain the property of Academy District 20 and subject to disclosure under the Colorado Open Records Act (CORA).

No student shall access, create, transmit, retransmit, generate using an artificial intelligence tool, or forward material or information:

- that promotes violence or advocates destruction of property including, but not limited to, access to information concerning the manufacturing or purchasing of destructive devices or weapons
- that is not related to District education objectives
- that contains pornographic, obscene, or other sexually oriented materials, either as pictures or writings, that are intended to stimulate erotic feelings or appeal to prurient interests in nudity, sex or excretion
- that harasses, threatens, demeans, or promotes violence or hatred against another person or group of persons in violation of the District's nondiscrimination policies
- for personal profit, financial gain, advertising, commercial transaction, or political purposes
- that plagiarizes the work of another
- that uses inappropriate or profane language likely to be offensive to others in the school community
- that is knowingly false or could be construed as intending to purposely damage another person's reputation
- in violation of any federal or state law or District policy, including but not limited to copyrighted material and material protected by trade secret
- that contains information protected by confidentiality laws
- using another individual's Internet or electronic communications account
- that impersonates another or transmits through an anonymous remailer
- that accesses fee services without specific permission from the system administrator
- as a means for cyberbullying (policy JICDE)

Security and safety

Ensuring the security and safety of digital resources is of paramount importance. Students must promptly report any security concerns they encounter while using digital resources to designated District personnel. Additionally, students are prohibited from engaging in activities that compromise the integrity or functionality of District networks or digital resources, including acts of vandalism, hacking attempts or unauthorized access attempts which includes using another person's password or any other identifier. Inappropriate use or vandalism against District networks or digital resources are subject to disciplinary measures, including loss of

the digital resource, loss of network privileges, suspension, expulsion, or civil or criminal liability under applicable laws.

In the interest of student safety and security, schools integrate digital citizenship and media literacy skills into instruction as part of their accreditation process. Students are reminded to exercise caution if sharing personally identifiable information (PII) and to refrain from arranging in-person meetings with individuals encountered online.

District Provided Devices (DPD)

Students must handle and maintain District-provided devices carefully to avoid fines for damages. They are responsible for the safekeeping, proper use, and accountability of these devices, including refraining from putting stickers or other modifications on the device. Damage or loss of devices must be reported within 24 hours, and if a student leaves the District, the device must be returned at the time of disenrollment. Student DPDs must not be taken out of the country.

Student use is a privilege

The District emphasizes that the use of digital resources, including access to the Internet, electronic communications, artificial intelligence, and digital media services, is a privilege contingent upon responsible and ethical conduct. Failure to adhere to established usage guidelines may result in the loss of access privileges, restitution for damages incurred, and disciplinary action in accordance with District policy.

School district makes no warranties

Students and parents/guardians are required to annually review the District's Student Use of the Internet, Electronic Communications, and Digital Media (JS E 1) before accessing Internet, electronic communications, or digital media accounts. It is important to note that the District assumes no liability for the content accessed or the quality of information received via digital resources, and students utilize such resources at their own risk.

Students with Life-Threatening Allergies (administrative policy JLCDA)

The District recognizes that many students are being diagnosed with potentially life-threatening food allergies. To best protect students and to meet state law requirements concerning the management of food allergies and anaphylaxis among students, the District requires the following:

Health care plan

The school nurse, or a school administrator in consultation with the school nurse and parent, shall develop and implement a health care plan (plan) for each student with a diagnosis of a potentially life-threatening food allergy. The plan shall address communication between the school and emergency medical services, including instructions for emergency medical responders.

Reasonable accommodations

Reasonable accommodations shall be made to reduce the student's exposure to agents that may cause anaphylaxis within the school environment. If a student qualifies as a student with a disability in accordance with federal law, the student's Section 504 plan, Individualized Education Program (IEP), and/or other plan developed in accordance with applicable federal law shall meet this requirement.

Access to emergency medications

Emergency medications for treatment of the student's food allergies or anaphylaxis need not be locked, but shall be kept in a secure location away from the reach of students. The student's parent/legal guardian shall supply the school with the medication needed for treatment of the student's food allergies or anaphylaxis, unless the student is authorized to self-carry such medication in accordance with administrative policy JLCD, Administering Medications to Students. Even if the student is authorized to self-carry, the parent is strongly encouraged to provide self-injectable epinephrine to the school.

Staff training

The principal or designee, in consultation with the school nurse, shall determine the appropriate recipients of emergency anaphylaxis treatment training, which shall include those staff directly involved during the school day with a student who has a known food allergy.

Suspension, Expulsion and Denial of Admission (administrative policy JKD/JKE):

Academy District 20 shall provide due process of law to students, parents/guardians and school personnel through written procedures consistent with law for the suspension or expulsion of students and the denial of admission.

The Board and its designee(s) may consider the following factors in determining whether to suspend or expel a student:

1. the student's age;
2. the student's disciplinary history;
3. the student's eligibility as a student with a disability;
4. the seriousness of the violation committed by the student;
5. the threat posed to any student or staff; and
6. the likelihood that a lesser intervention would properly address the violation.

The following are grounds for suspension or expulsion under state law and/or District policy:

1. Continued willful disobedience or open and persistent defiance of proper authority.
2. Willful destruction or defacing of school property.
3. Behavior on or off school property that is detrimental to the welfare or safety of other students or school personnel, including behavior that creates a threat of physical harm to the child or to other children. Nothing in this paragraph shall be construed to limit the school district's authority to suspend a student with a disability for a length of time consistent with federal law.
4. Declaration of the student as a habitually disruptive student, pursuant to administrative policy JK and its accompanying administrative procedure.
 - a. For purposes of this paragraph, "habitually disruptive student" means a child who has caused a material and substantial disruption three times during the course of the school year on school grounds, in a school vehicle or at school activities.
 - b. The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student."
5. The use, possession, or sale of a drug or controlled substance.

Any exclusion for such failure to comply shall not be recorded as a disciplinary action but may be noted in the student's permanent record with an appropriate explanation.

Grounds for denial of admission

Admission to Academy District 20 may be denied a student for the following reasons:

1. Graduation from the 12th grade of any school or receipt of any document evidencing completion of the equivalent of a secondary curriculum;

Any suspension, expulsion, or denial of admission for such failure to comply shall not be recorded as a disciplinary action but may be noted in the student's immunization record with an appropriate explanation.

Expulsion or Denial of Admission for unlawful sexual behavior or crime of violence

When a petition is filed in juvenile court or district court that alleges a student between the ages of 12 to 18 years has committed an offense that would constitute unlawful sexual behavior or a crime of violence if committed by an adult, basic identification information, as defined in state law, along with the details of the alleged delinquent act or offense, is required by law to be provided immediately to the school district in which the juvenile is enrolled.

The information shall be used by the superintendent to determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or school personnel and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The District shall take appropriate disciplinary action, which may include suspension or expulsion, in accordance with the student code of conduct and related policies.

The superintendent may determine to wait until the conclusion of court proceedings to consider expulsion, in which case it shall be the responsibility of the District to provide an alternative educational program for the student as specified in state law.

Most issues are solved closest to where they arise. The District instructs families to address concerns beginning with the appropriate staff member, move to school leadership if needed, and use the District's posted complaint or appeal process when an issue remains unresolved.

Established Process:
